

Hydrophytes

- 14 ■ Large-flowered waterweed***
- Species fact sheet
 - Managing large-flowered waterweed in the Loiret department
 - Managing large-flowered waterweed and curly waterweed by installing screens on the water bottom (Landes department)
 - Planting riparian vegetation to limit the spread of large-flowered waterweed in the Jalle de Blanquefort river basin (Gironde department)
- 28 ■ Water fern**
- Species fact sheet
 - Experiments on biological control of water fern in the U.K., Belgium and the Netherlands
 - Managing water fern on two sites in northern Corsica
- 39 ■ Curly waterweed***
- Species fact sheet
 - Managing curly waterweed in the valley of the Vergnote River (Lot-et-Garonne department)
 - Managing curly waterweed in the Salagou reservoir (Hérault department)

Amphibious plants

- 49 ■ New Zealand pigmyweed***
- Species fact sheet
 - Managing New Zealand pigmyweed in the pools of Cap Griz-Nez (Pas-de-Calais department)
 - Managing New Zealand pigmyweed in an old side channel of the Vire River (Manche department)
 - Experiment in managing New Zealand pigmyweed using a thermal weed-control technique (Loire-Atlantique department)
 - Elimination of New Zealand pigmyweed in a wetland in the Seine-et-Marne department
- 65 ■ Water primrose***
- Species fact sheet
 - Managing water primrose in the Gardons basin. Management report on four years of work (Gard department)
 - Managing water-primrose colonisation of a canal in the Grande Brière Mottière marshes (Loire-Atlantique department)
 - Experiment on restoring wet meadows colonised by water primrose in the Isac marshes (Loire-Atlantique department)
 - Testing a method to eradicate water primrose from two ponds in Acigné (Ille-et-Vilaine department)
- 89 ■ Broadleaf watermilfoil**
- Species fact sheet
 - Managing broadleaf watermilfoil on the Somme River and its canals (Somme department)

Riparian plants

- 96 ■ Groundsel bush***
- Species fact sheet
 - Controlling groundsel bushes on the Ria d'Étel Natura 2000 site (Morbihan department)
 - Managing groundsel bushes in the Grande Brière Mottière marshes (Loire-Atlantique department)
 - Experiment in managing groundsel bushes using sheep in the Rostu marshes (Loire-Atlantique department)
- 111 ■ Common bamboo**
- Species fact sheet
 - Experimental work site for bamboo management in the central zone of the Guadeloupe national park
- 117 ■ Giant cane**
- Species fact sheet
 - Experiment on a mechanical technique to rapidly eliminate giant cane (Hérault department)
- 125 ■ Japanese hop**
- Species fact sheet
 - Experiments in managing Japanese hop in the Gardons basin (Gard department)
- 132 ■ Yellow skunk cabbage**
- Species fact sheet
 - Managing yellow skunk cabbage in Saint-Léonard-de-Noblat (Haute-Vienne department)
- 136 ■ Asian knotweed***
- Species fact sheet
 - Managing Japanese knotweed at the confluence of the Luye and Durance Rivers (Alpes-de-Haute-Provence and Hautes-Alpes departments)
 - Experiments to manage Japanese knotweed in the Saint-Pierre-et-Miquelon archipelago
- 149 ■ Smooth cordgrass**
- Species fact sheet
 - Managing smooth cordgrass in Brest bay (Finistère department)
- 155 ■ Lizard's tail**
- Species fact sheet
 - Managing lizard's tail along the Loire River (Maine-et-Loire department)
