

Contributions and acknowledgements

Coordination

- Emmanuelle Sarat (IUCN French committee)

Production and drafting

- Clara Singh (IUCN French committee)
- Doriane Blottière (IUCN French committee)

Contributions and proofreading

- Alain Dutartre (Independent expert)
- Yohann Soubeyran (IUCN French committee)
- Nicolas Poulet (OFB)

Acknowledgements

This fourth volume of the book, *Invasive alien species: practical information and management insights*, is the product of a collaborative effort involving over 50 people. We wish to warmly thank them for their participation in this work and in particular for sharing the results of a wide array of management projects.

Contributions to and drafting of management reports

- Juliette Arrighi (Savoie department)
- Patrick Barrière (New Caledonian Nature Conservatory)
- Louise Barthod (Concept.Cours.d'Eau SCOP Aquabio)
- Charles Bergère (Town of Sinnamary)
- Doriane Blottière (IUCN French committee)
- Alicia Bonanno (ONF Martinique)
- Mireille Boyer (Concept.Cours.d'Eau SCOP Aquabio)
- Mathilde Brassy (Carbet des sciences)
- Christophe Brocherieux (DIREN French Polynesia)
- Éva Burguin (Brest National Botanical Conservatory)
- Ken Cadin (New Caledonian Nature Conservatory)
- Dominique Chery (ONF Réunion)
- Harmonie Coroller (Armorique Regional Nature Park)
- Cyril Cottaz (Mediterranean National Botanical Conservatory)
- Clarisse Courty (DEAL Martinique)
- Guillaume d'Hier (Pays-de-la-Loire Nature Conservatory)
- Fabien Dortel (Brest National Botanical Conservatory)
- Victoria Dubus (Grand Site Salagou-Cirque de Mourèze Board)
- David Étienne (Saint-Brieuc Armor urban area)
- Marie Fourdrigniez (Bioconsulting)
- Madeleine Freudenreich (IUCN French committee)
- Mathieu Gourand (Orge River Board)
- Julie Gresser (DEAL Martinique)

- Pierre Guinaudeau (SAH Sud Loire)
- Laure-Line Lafille (New Caledonian Nature Conservatory)
- Miguel Lamalfa Diaz (DEAL Mayotte)
- Agathe Lazillière (Armorique Regional Nature Park)
- Emmanuelle Leheurteux (Pays-de-la-Loire Nature Conservatory)
- Clément Lermyte (Biotope)
- Isabelle Losinger-Chabod (OFB)
- Julie Mattei (New Caledonian Nature Conservatory)
- Dimitri Mercier (Reyssouze River-Basin Board)
- Jean-Yves Meyer (Research Agency for French Polynesia)
- Emilie Moine (Monts du Pilat CPIE)
- Yohann Petit (Corsican National Botanical Conservatory)
- Benoit Pisanu (MNHN)
- Claire Rameaux (Savoie department)
- Fabian Rateau (ONF Martinique)
- Marie-Laure Rizzi (DEAL Martinique)
- Adelyne Rolland (Arcachon Bay Board)
- Régis Royer (ASARM)
- Clara Singh (IUCN French committee)
- Yohann Soubeyran (IUCN French committee)
- Anna Stier (GEPOG)
- Ravahere Taputuairai (Independent expert)
- Éléonore Terrin (Mediterranean National Botanical Conservatory)
- Marion Thery (AGENB)
- Sébastien Traclet (Mascarin National Botanical Conservatory)
- Julien Triolo (ONF Réunion)

Edition

- Stéphanie Belaud et Béatrice Gentil-Salasc (OFB)

Translation

- Bartsch & Cie (info@bartsch.fr)
- Adam Clark (p59, p114)

Graphic design and layout

- Béatrice Saurel (saurelb@free.fr)

Citation

- Singh C., Blottière D., Sarat E., Dutartre A., Soubeyran Y. and Poulet N., 2022. *Invasive alien species: practical information and management insights*. Volume 4. French Biodiversity Agency. *Knowledge for action series*. 164 pages.

This volume is part of the *Knowledge for action* series and can be downloaded from the technical portal of the French Biodiversity Agency (<https://professionnels.ofb.fr/fr/comprendre-pour-agir>).

Below is a list of the latest publications.

24. The cost of degradation in aquatic environments for water users. An assessment of compensatory expenses (2017, in French)
25. Scientific data and recommendations on creating planted discharge zones (2017, in French)
26. Ecological damage and ecological torts. How does society deal with and remediate damage to water and aquatic environments? (2017, English translation in 2018)
27. River restoration in France. Changes in definitions and methods over time and space. Outlook for the future (2017, in French)
28. Cumulative impact of water reservoirs on aquatic environments. A collective science-advice report (2017, in French)
29. Invasive alien species in aquatic environments, Practical information and management insights. Vol. 3, Management insights (2018, English translation in 2019)
30. Mid and long-term projections of demand for drinking water. An assessment of current methods and practices (2019, in French)
31. The benefits of preserving groundwater. Why assign a monetary value and how? (2018, in French)
32. Lessons from the human and social sciences on eliminating micropollutants in aquatic environments (2018, in French)
33. Synergies between agro-ecology and ecological networks (2019, in French)
34. Assessing the passage of obstacles by fish and macro-crustaceans in the French tropical islands of the Atlantic and Indian Oceans. Concepts and design (2019, English translation 2021)
35. Bresle - Oir - Scorff - Nivelle. Three decades of observation and research on migratory fish (2020, in French)
36. State of the art, available methods and current practices in determining ex ante compensation of damage to biodiversity (2020, in French)
37. The history and environmental impacts of gold washing in French Guiana. Keys to understanding the current tensions (2020, in French)
38. Assessment of the National Biodiversity Strategy 2011-2020 (condensed version) (2020, in French)
39. Techniques to prepare and implement dark ecological networks (2021, in French)
40. Prospective studies for biodiversity. Using the future to promote public biodiversity policies (2021, in French)
41. Treatment of household wastewater in the overseas departments (2021, in French)
42. Micropollutants produced by households and artisanal companies. Changing habits to better preserve water. Management reports and recommendations for local governments (2021, in French)
43. Conducting a "micropollutant" diagnosis in an urban area - Methodological feedback from the national "urban water micropollutant control" program (2022, in French)
44. Micropollutants emitted by the healthcare sector: taking care of water too - Feedback and recommendations for hospital and healthcare stakeholders (2022, in French)
45. Invasive alien species, Practical information and management insights. Volume 4 (2022, English translation 2023)
